Message from Dean Gregory N. Washington:

This winter, the Engineering Student Council is hosting a career fair. Companies engage with our students through career fairs in order to either identify new employees for permanent positions or for interns for the summer. All UCI students fit in one of these categories and should attend regardless if you are looking this quarter. Why? The competition for jobs is at an all-time high and often, permanent jobs and internships are taken by students from semester schools that have a more favorable academic calendar for companies as they normally end in May which means they can start earlier. National studies from companies show that the best jobs are given away by February!

So get out there and interview and represent the Eater Nation! You have been prepared by our award winning faculty and you will do exceptionally well. Zot! Zot! Zot!

Upcoming EWEEK Events:

THUR 23	SHADOW DAY STUDENT CENTER DOHENY BEACH EWEEK BBQ ENGINEERING PLAZA INTRODUCE A GIRL TO ENGINEERING DAY CALIT2
FRI 24	ENGINEERING AWARDS BANQUET STUDENT CENTER MOSS COVE
SAT 25	FACULTY SPORTS DAY GABRIELINO FIELDS
